Guillermo Trejo

Frontend Engineer · React · Next.js · TypeScript · JavaScript

San Marcos, TX | +1 (737) 212-2547 | maynardtrejo@yahoo.com | LinkedIn | Portfolio

SUMMARY

Frontend Engineer specialising in React, Next.js, and TypeScript with a track record of translating design wireframes into reusable, maintainable component-based interfaces shipped to production. Built a real-time AI skin analysis platform achieving 98% detection accuracy and a 60% engagement increase through optimised UI components and responsive design — experienced collaborating with designers and developers in remote, distributed team environments.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks	React, Next.js, Node.js, TailwindCSS, Redux
Tools	Firebase, Stripe, REST APIs, Git, GitHub, Vercel, Figma (familiar), AWS (Lambda, API Gateway, DynamoDB)
In progress	Jest, Cypress, React Testing Library

WORK EXPERIENCE

Frontend Engineer | Skinstric AI · Internship · Remote Sep 2025 – Nov 2025

- Translated design wireframes into functional, visually appealing user-facing features for a real-time AI skin analysis platform using Next.js and OpenAI Vision API, achieving 98% detection accuracy.
- Built reusable, maintainable UI components with TailwindCSS and GSAP animations in a component-based architecture, increasing user engagement by 60%.
- Optimised application performance using Next.js Server Components, reducing analysis processing time to under 2 seconds with fast, responsive, cross-browser compatible interfaces.
- Collaborated with designers and backend engineers in a remote environment to bridge design and technical implementation across the full product lifecycle.

Staffing Development Manager | Legend Oaks Healthcare · Full-time · Kyle, TX Mar 2016 – Sep 2024

- Promoted from CNA to Staffing Development Manager, overseeing recruitment, onboarding, and training for a team of 26 CNAs.
- Maintained 100% accuracy in electronic charting — a critical component of Medicare and Medicaid billing compliance.

PROJECTS

Clinical Dashboard Live Demo | GitHub

- Designed and built a responsive medical dashboard using Next.js, TypeScript, and Node.js — translating wireframes into reusable components with patient filtering, dynamic data retrieval, and API routes serving mock clinical KPIs.

NFT Marketplace 4 Live Demo | GitHub

- Built a high-performance, responsive marketplace using React, JavaScript (ES6+), HTML5, and CSS3 with REST API integration — delivering sub-2-second load times through optimised asset fetching and animated UI components.

Book Store Live Demo | GitHub

- Developed a full-stack e-commerce SPA using Next.js, TypeScript, Node.js, and Firebase with Stripe payment integration, Firebase authentication, and scalable component-based architecture.

Skinstric AI Live Demo | GitHub

- Next.js, React, TypeScript, OpenAI Vision API: real-time skin condition analysis platform deployed to production with 98% detection accuracy and 60% engagement increase.

EDUCATION

Certificate — Frontend Development | Frontend Simplified Nov 2023 – Mar 2026
