Guillermo Trejo

Frontend Engineer | React | Tailwind CSS | JavaScript (ES6+) | TypeScript | Next.js
guillermotrejo.dev@gmail.com | +1 (737) 212-2547 | San Marcos, TX | LinkedIn | Portfolio

Summary

Frontend Engineer with hands-on, professional experience in React, Tailwind CSS, and JavaScript, building accessible, component-based interfaces shipped to production. Delivered a real-time AI platform with optimised UI components achieving 98% detection accuracy and a 60% engagement increase, alongside REST API integrations and reusable component libraries across several deployed projects. Comfortable collaborating across design and engineering teams in remote, cross-functional environments, and currently building out testing skills with Jest and React Testing Library to strengthen code reliability.

Technical Skills

Frameworks & Styling: React, Tailwind CSS, Next.js, Redux, Node.js
Languages & Web: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend Specialisms: Component-based architecture, reusable component libraries, accessible UI, performance optimization, debugging, responsive cross-browser design
Tools & Platforms: REST APIs, Firebase, Stripe, Git, GitHub, Vercel, Figma (familiar), AWS (Lambda, API Gateway, DynamoDB)
In Development: Jest, Cypress, React Testing Library

Experience

Skinstric AI Remote Sep 2025 - Nov 2025
Frontend Engineer

- Translated design wireframes into functional, user-facing features for a real-time AI skin analysis platform using Next.js and the OpenAI Vision API, achieving 98% detection accuracy.
- Built reusable, maintainable UI components with Tailwind CSS and GSAP animations in a component-based architecture, increasing user engagement by 60%.
- Optimised application performance using Next.js Server Components, reducing analysis processing time to under 2 seconds while maintaining fast, responsive, cross-browser compatible interfaces.
- Collaborated with designers and backend engineers in a remote, cross-functional environment to bridge design and technical implementation across the full product lifecycle.

Legend Oaks Healthcare Kyle, TX Mar 2016 - Sep 2024
Staffing Development Manager

- Promoted from CNA to Staffing Development Manager, overseeing recruitment, onboarding, and training for a team of 26 staff, with consistent attention to process accuracy and compliance.

Projects

Clinical Dashboard | Live Demo | GitHub

- Responsive medical dashboard built with Next.js, TypeScript, and Node.js, translating wireframes into reusable components with patient filtering, dynamic data retrieval, and API routes serving mock clinical KPIs.

Skinstric AI | Live Demo | GitHub

- Real-time skin condition analysis platform built with Next.js, React, and TypeScript, integrating the OpenAI Vision API and deployed to production with 98% detection accuracy and a 60% engagement increase.

NFT Marketplace | Live Demo | GitHub

- High-performance, responsive marketplace built with React, JavaScript (ES6+), HTML5, and CSS3, integrating REST APIs and delivering sub-2-second load times through optimised asset fetching and animated UI components.

Book Store | Live Demo | GitHub

- Full-stack e-commerce SPA built with Next.js, TypeScript, and Node.js, featuring Stripe payment integration, Firebase authentication, and a scalable, component-based architecture.

Education

Frontend Simplified Nov 2023 - Mar 2026
Certificate, Frontend Development
